EDUCATION

JSS Academy of Technical Education, Noida

B.Tech in Computer Science and Engineering

Sept. 2023 – May 2027

CGPA: 7.26/10

SKILL SET

Languages: C/C++, Python, SQL, JavaScript, TypeScript, HTML/CSS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

AI & LLM: OpenAI API, Claude API, Prompt Engineering, Embeddings

Databases: MongoDB, PostgreSQL, MySQL

Developer Tools: Git, GitHub, Docker, Linux, VS Code, AWS

Libraries: Pandas, NumPy[1.5pt]

EXPERIENCE

AICTE GenAI & Cloud Computing Summer Internship

May 2026 – July 2026

BharatCares (CSRBOX) — In collaboration with IBM

Remote

- Completed a **6-week internship** focused on **Generative AI, Prompt Engineering, Large Language Models (LLMs)**, and **Cloud Computing** fundamentals.
- Built hands-on **AI applications** and explored real-world use cases with modern **GenAI tools and cloud technologies** through guided industry sessions.
- Applied Generative AI, LLM workflows, and cloud technologies across **7+ AI-focused modules**, translating concepts into hands-on applications and practical real-world use cases.

PROJECTS

ResuMatch

[Live Demo](#)

- Built an **AI-powered resume and job matching platform** that analyzes resumes against job descriptions, generates match scores, identifies missing skills and keywords, and provides tailored optimization suggestions.
- Integrated **AI-powered resume analysis** with before/after match scoring, side-by-side resume comparison, explanatory insights, and optimized resume downloads to help users improve job-specific resumes.
- Engineered a **job recommendation system** with **5 filtering criteria** including match score, location, work type, experience level, and source, enabling users to discover relevant opportunities with quick-apply links.

MediCompare

[Live Demo](#)

- Developed a **healthcare comparison platform** for searching, filtering, comparing, and booking hospitals based on **specialty, price, and ratings**.
- Implemented **side-by-side hospital comparison** with price trends, ratings, reviews, service details, and booking links, alongside interactive maps and location routing using React Leaflet.
- Built a **production-ready SSR application** using React, TypeScript, TanStack Start, Supabase, and React Query, deploying client and server bundles on Vercel for improved rendering and SEO.

CERTIFICATIONS & ACHIEVEMENTS

- **AWS AI Practitioner Challenge:** Completed course challenge through Udacity, April 2026.
- **Deloitte Technology Job Simulation:** Completed practical tasks in coding and software development through Forage, August 2025.
- **LeetCode Knight:** Max Contest Rating **1994**. Ranked among the **Top 3.60%** of active contestants globally.
