EDUCATION

JSS Academy of Technical Education, Noida

B.Tech in Computer Science and Engineering

Sept. 2023 – May 2027

CGPA: 7.17/10

SKILL SET

Languages: C/C++, Java, Python, SQL, JavaScript, TypeScript, HTML/CSS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL, MySQL, Supabase

Developer Tools: Git, GitHub, Docker, VS Code, AWS, Netlify, Render

Libraries: Pandas, NumPy, Matplotlib

PROJECTS

FitTrack

[Live Demo](#)

- Developed an AI-powered fitness tracking web application to help users monitor workouts, fitness progress, and health-related activities
- Built a responsive full-stack application using React.js, Node.js, Express.js, and MongoDB with modern UI design using Tailwind CSS
- Implemented authentication, workout management, and progress tracking features to improve user experience and engagement
- Deployed and managed the application using Vercel for seamless accessibility and performance

Silo Study AI

[Live Demo](#)

- Built an AI-powered study assistant platform to help students organize learning resources and improve study efficiency
- Integrated AI-based features for intelligent content assistance, study support, and user interaction
- Designed a responsive and modern user interface using React.js and Tailwind CSS for smooth cross-device experience
- Implemented backend APIs, database integration, and deployment workflows for scalable application performance

ResuMatch

[Live Demo](#)

- Built a platform that analyzes resumes against job descriptions, generates ATS match scores, identifies missing skills, and suggests optimized resume improvements
- Implemented resume upload and parsing workflows with Supabase Storage, authentication using Supabase Auth, and protected dashboards for personalized analysis history
- Developed AI-driven resume optimization and job recommendation pipelines using Supabase Edge Functions and external AI APIs for intelligent skill matching
- Designed a responsive and modern UI using React.js, TypeScript, Tailwind CSS, shadcn-ui, and Framer Motion with advanced filtering and job recommendation features

CERTIFICATIONS

AWS Cloud Practitioner Essentials | *AWS Cloud*

- Learned AWS cloud fundamentals including compute, storage, networking, and security services

AWS AI Practitioner Challenge | *Udacity, AWS*

- Explored AI concepts and AWS AI services for modern cloud-based applications

ACHIEVEMENTS

- Solved 450+ DSA problems on LeetCode, showcasing proficiency in complex algorithms and problem-solving
- Profile Links:- [LeetCode](#)
